

TMD Group

Precision Engineering for the Future of Mobility

About TMD Group: Our Experience and Clientele

We specialize in precision engineering for automotive and industrial markets worldwide.

Why Source from TMD Group?

With a long-standing legacy of precision engineering, highest-level certifications (IATF 16949, ISO 9001), and recognition by top-tier automotive brands, TMD Group delivers innovative, cost-competitive components trusted across the global industry.

TMD Group

With over 70 years of experience, **TMD Group** is a trusted European manufacturer of forged and machined components for leading automotive, rail, and industrial brands. Headquartered in Bosnia and Herzegovina, we export 100% of our production to countries including Germany, Austria, Slovenia, Italy, France, Serbia, and Bulgaria. Our clientele includes industry leaders such as **Schaeffler Group, Benteler, SKF, ICSA, SNR NTN, Ducati Energia, Zedce, and MS Hydraulic.**

Why Partner with TMD Group?

Tier-1 Trusted: Recognized by global leaders with accolades like "Supplier of the Year 2012" from SNR NTN and "A" supplier status from the Schaeffler Group since 2008.

Certified Quality: ISO 9001:2015 and IATF 16949:2016 certified, ensuring top-tier quality management systems.

Vertically Integrated: Comprehensive in-house operations encompassing forging, machining, and assembly for end-to-end quality control.

Export-Ready: Proven logistics and support systems aligned with U.S. and Mexico supply chain requirements.

Engineering Excellence: Collaborative product development and design-for-manufacturing support tailored to client needs.

TMD Automotive Strategic Advantages:

Proven Exporter: 100% of production currently exported to Europe—now positioned to serve U.S. and Mexico with the same level of consistency and quality.

Competitive Cost Structure: Bosnia and Herzegovina-based manufacturing offers high-quality output with cost advantages.

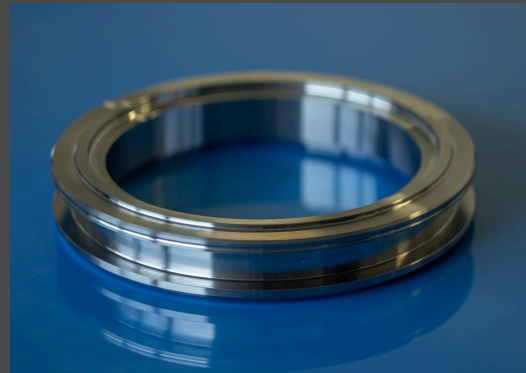

Supply Chain Reliability: Flexible, agile production and logistics tailored to meet U.S. and Mexico OEM JIT requirements.

TMD Automotive Components:

Bearing rings & rollers, seat frame structures, engine and suspension parts, pulleys, rotors, and tube components.

Industrial Applications:

Tailored for North America: EV & ICE-compatible designs, lightweight & high-strength solutions, cost-effective European production delivering seamless integration with existing platforms.

TMD Group, represented by **EDOM Connect** and its local distribution affiliate, **Texas Global Business, LLC**, is expanding its market presence to serve the U.S. and Mexico OEMs and Tier-1 suppliers ready to optimize their supply chain with a proven, agile, and globally competitive manufacturing partner.
